Fall 2009

Commercially Available Native Seed for South Texas - Fall '09

By Forrest S. Smith

The drought of 2009 has south Texas firmly in its grasp, but many long-term forecasters are predicting a rainier weather pattern to set in this fall. Once it does rain, there are some excellent quantities of native seed available for restoration and re-vegetation projects. Below is a list of seed available now. Please show these cooperating seed companies your support of their efforts to produce the STN/PMC releases.

For more information about these seed releases please visit the [plant release page](#) at the STN Website, or contact Forrest Smith at forrest.smith@tamuk.edu.

Release name	Grower(s)	Phone
Catarina Bristlegrass Blend	Bamert Seed Co. Turner Seed Co. Pogue Agri Partners Douglas King Seed Co.	Pogue (830) 583-3456 Douglas King (888) 357-3337
